

CONVERD

Enviroboard™ MR (Moisture-Resistant)

Enviroboard™ MR is a bright white, printable on both sides, dimensionally stable, rigid FSC certified board material designed for indoor and short-term outdoor point-of-purchase and signage applications.

The Enviroboard™ MR is a FSC certified composite that incorporates 10% PCW* to achieve maximum sustainability without sacrificing the print quality or surface characteristics required for critical P.O.P. applications. The engineered composite media is also designed to provide high impact and crush resistance into a fully recyclable alternative to foam or corrugated plastic boards.

Enviroboard™ MR has even achieved independent certification of recyclability through the North Carolina State University Dept. of Wood and Paper Science.

Enviroboard™ MR. Fully recyclable product for maximum sustainability.
